

What went well

- Our meetings

What didn't go well

- Having to update UI a few times (i.e. moving ListViews over to recycler views)
- We had one issue of merge conflicts that was easily resolved

What could be improved

- Doing some of the work on previous sprint(s).

Challenges

- Being unable to work together in person.
- Not having access to locations to do testing for taking a tour.
- John's computer crashing.
