4/3/2020

John
- What's been done: Nothing, studying for a math test.

- What will be done: Location fragment for main menu.

- What's been hard:Getting back in the swing of things.

Laney
- What's been done: Updated the lat/long problem with editTour

- What will be done: Finish up location (managerId, approved, locationId)

- What's been hard:

Dallon
- What's been done: Finished Sprint 2, created folder and backlog of previous sprint

- What will be done: Preventing user errors on code

- What's been hard: Catching up on classwork

Brandon Hightower
- What's been done: UI tests

- What will be done: Viewing Location page, and drop down for Location page

- What's been hard: Quarantine

4/7/2020
John
- What's been done: Nothing, studying for a CS test.

- What will be done: Main menu location fragment.

- What's been hard:Remoteness and mindset.

Laney
- What's been done: Looked at color schemes for UI
- What will be done: Update locations
- What's been hard: I haven't been feeling well :(

Dallon
- What's been done: Setting Studio on my desktop

- What will be done: UI improvements

- What's been hard: Teachers increasing workload due to classes being online

Brandon
- What's been done: Updated some UI looks and added two pages

- What will be done: Loading page

- What's been hard: Remote learning

4/9/2020

Laney
- What's been done: Nothing, tried to pull branch from github
- What will be done: Very basic tour taking functionality
- What's been hard: Github is still difficult for me for some reason

Dallon
- What's been done: non-functional code for settings tab

- What will be done: further fixing of incorrect data

- What's been hard: Writing paper 2

Brandon
- What's been done: Created loading animation for refreshing pages

- What will be done:Working on creating side pull out drawer for most activities

- What's been hard: Multitasking several things

4/14/2020

John
- What's been done: Main menu now displays tours that are within the camera frame. I have also created two fragments for a user to view a location and a tour after getting to it from a location.

- What will be done: Passing docId to fragment and fleshing out the fragments.

- What's been hard: Learning to query firebase.

Laney
- What's been done: Started looking into basic tour taking
- What will be done: Finish up basic tour taking
- What's been hard: Health problems

Dallon
- What's been done: Looked into error prevention

- What will be done:Further fixing of error prevention

- What's been hard: Finding time

Brandon
- What's been done: More work with sidebar and animation/UI

- What will be done: Merge work with John

- What's been hard: Living when everything is closed :(

4/16/20

John
- What's been done: Fixed some crashes and implemented passing information from main menu fragment to location page fragment.

- What will be done: Opening a list of tours for a location and a tour page.

- What's been hard: Existential dread resulting from a pandemic.

Laney
- What's been done: found out all my problems were caused by not having an android studio update
- What will be done: taking a tour
- What's been hard: not feeling well, android studio didn't tell me it needed an update until after I deleted and reinstalled the project

Dallon
- What's been done: Failed attempts at editing taking tours

- What will be done: Making video because I'm terrible at this program

- What's been hard: Being useless

Brandon
- What's been done: Integrated the explore page into the sidebar activity

- What will be done: Implement a few pages needed

- What's been hard: Doing this immediately

4/18/20

John
- What's been done: I have worked on getting the exact location.

- What will be done: Finishing getting the exact location using another provider.

- What's been hard: My computer losing its mind.

Laney
- What's been done: started updating the website, looked at John's branch
- What will be done: taking a tour
- What's been hard: delegating time between classes, not feeling well

Dallon
- What's been done: Starting video creation

- What will be done: Finding music and filming demo for video

- What's been hard: Semester wrapping up

Brandon
- What's been done: Worked on creating a RecyclerView on the Explore tab, along with minor fixes across app

- What will be done: Finish implementing a few things, and look into location services

- What's been hard: The semester is almost over

DATE1
- ONLY ADD TEAM MEMBERS WHO ARE ACTUALLY AT THE MEETING IN PERSON
- EACH MEMBER SHOULD ENTER THEIR OWN INFORMATION AFTER THEY SHARE VERBALLY TO THE TEAM

John
- What's been done: Nothing, Windows died on my computer.

- What will be done: Reinstalling Windows and then Android Studio and hoping there is time to still contribute.

- What's been hard: Windows dying.

Laney

- What's been done: Edit and create location
- What will be done: Improve smaller issues: uploading and viewing images in locations, use my current location
- What's been hard: Medical issues

Dallon
- What's been done: Fixed button popups to be numbers instead of keyboard

- What will be done: Tour map location creation

- What's been hard: Not overlapping on work

Brandon
- What's been done: Working on location feedback

- What will be done: Finish implement taking a tour

- What's been hard: Quarantine

4/23/2020
- <mark>ONLY ADD TEAM MEMBERS WHO ARE ACTUALLY AT THE MEETING IN PERSON</mark>
- <mark>EACH MEMBER SHOULD ENTER THEIR OWN INFORMATION AFTER THEY SHARE VERBALLY TO THE TEAM</mark>

John
- What's been done: Nothing, my computer is still broken.

- What will be done: Making a USB boot drive to fix my Windows installation.

- What's been hard: My computer.

Laney
- What's been done: Able to add images from phone and upload them to Firebase cloud for locations
- What will be done: Present
- What's been hard: My computer restarting every 15 minutes

Dallon
- What's been done: Making JUnit tests

- What will be done:Not much, it's 2 hours before the presentation

- What's been hard: Figuring out what happens when I graduate

Brandon
- What's been done: Put finishing touches

- What will be done: Pray my internet connection stays strong

- What's been hard:
